1) Protective effects of grape seed proanthocyanidins and selected antioxidants, Gen Pharmacol, 1998; 30

2) Anti-Inflammatory and skin hydrating properties of a dietary supplement and topical formulations containing OPC, Skin Pharmacology and Physiology, 2007; 20

“ Proanthocyanidins may do even more than prevent disease; they may make us more youthful looking. Oxidation damage causes most visible signs of aging in our skin. By preventing this damage, skin will stay younger looking. ”

MARILYN STERLIN, R.D., JUNE 2000 ISSUE OF NUTRITION SCIENCE NEWS

NASOBIH™ is the only anti-aging system designed with multiple antioxidant ingredients taken orally and applied topically to have a maximal synergistic effect on your health and your skin.*
